# RAVENNA

## RAVENNA Motorcycle Fashion

Interamente pensato, disegnato e sviluppato in Italia, il marchio di abbigliamento moto RAVENNA Motorcycle Fashion è stato introdotto sul mercato nel 2018.

Ravenna è una città del nord Italia famosa nel mondo per il ruolo fondamentale ricoperto nella storia, durante e successivamente al dominio dell'Impero Romano e quindi per i suoi inestimabili e antichissimi monumenti arricchiti dai mosaici più belli al mondo.

Ravenna è oggi la capitale della Romagna, regione grande protagonista nella storia del motociclismo, che negli ultimi decenni ha dato al nostro sport numerosi campioni a livello mondiale.

In Romagna spiccano circuiti di altissimo livello come il World Circuit Marco Simoncelli di Misano e l'International Racetrack Enzo e Dino Ferrari di Imola, oltre a famosi Passi Appenninici come Il Muraglione, meta di piloti GP e di grandi appassionati della velocità.

La tradizione e la passione per il motociclismo della nostra meravigliosa regione sono note nel mondo intero. Oltre un secolo fa, nel lontano 1911, a Ravenna fu organizzata per la prima volta una gara di velocità di massimo livello internazionale, quella che oggi sarebbe definita MotoGP.

Wind Trading, fondata a Ravenna nel 1983, ha voluto così proporre il marchio RAVENNA per dare una identità territoriale alla sua collezione destinata a tutte le categorie dei motociclisti che amano l'asfalto, dagli smanettoni da circuito agli scooteristi di città, dai grandi viaggiatori agli amanti di classiche e custom.

Design e stile italiano sono gli assoluti leader nel mondo: RAVENNA Motorcycle Fashion ne è un indiscutibile interprete, rispettando appieno i parametri protettivi richiesti dalle varie omologazioni.

## RAVENNA Motorcycle Fashion

An entirely Italian idea and design, this brand, including a vast garment range for motorcycle riders, was introduced to the market in 2018.

Taking a glance at the name Ravenna, one will recognize it for its geographical position and its rich history. Located in Northern Italy, this city had been Capital of the Western Roman Empire, of the Ostrogothic Kingdom and of the Byzantine Empire. Today, Ravenna is appreciated for its world-renowned ancient monuments and stunning mosaics.

The city Ravenna is also part of the Region Romagna where racing is in its DNA. As early as 1911, even one of the first MotoGPs of Italy was organized on the streets of Ravenna. It's where world-famous motorcycle racing champions come from. Where bikers from around the globe come to enjoy some of the most challenging and scenic riding routes such as the Muraglione Pass. Where motor events are hosted yearly at racetracks like Misano Marco Simoncelli World Circuit and Imola International Enzo and Dino Ferrari Racetrack. This is the land where tradition and passion for racing prevail.

With over 35 years of experience, Wind Trading has proudly decided to launch the RAVENNA brand that gives a territorial identity to this clothing line that touring and adventure bikers, scooterists and track racers can all value for quality, design, safety and performance.
