

XTIRE TIRE SELANT • MOTORCYCLE

Xtire	Xtire is the leading brand in the tire selante market in Brazil with more than 35 years of experience specialized in development, production and distribution of eco-friendly sealants to shield tires against punctures, providing safety, economy and comfort to our clients and customers.	
Product Description	Xtire exclusive formula seals tire punctures instantly from the inside out, preventing air loss in tube and tubeless tires. The product seals punctures in the tread area made by objects up to 4mm in diameter on tubeless tires and 2mm diameter on tires with tubes.	
How it works	The motorcycle's regular motion makes the product creates a thin preventive protecting layer against punctures inside the tire or tube.	
Application	Xtire's unique formula and packaging provides on easy, quick and clean application without the need of dosing the product. Apply one full bottle per tire regardless the type of motorcycle.
